Hi Yousuf,

Please find an update version of the Gray Lit file with the remaining Type 3 references in the ERG tab screened and put through the decision tree. We were able to screen through these around waiting for exposure screening calibrations.

Best,
Kevin

Hi Yousuf,

Thank you. We will continue to address the type 3s accordingly. We have the following times available:

Wednesday 10-11am or after 2 pm

Thursday 3-4pm

Best,
Kevin

Subject: RE: ICF Grey Literature Decision Tree Screening Results

Hi Kevin,

Thank you and thank you to your team for your hard work on this interim deliverable.

Please continue tagging the type 3 disparate sources. If sources are inaccessible per the urls please just make a note as you have been doing in the "Complete?" column in the ERG_SearchResults tab.

I think it would be good to check in tomorrow or Thursday both on Task 1 and Task 2. Please let me know what times you are free for a call.

Best Regards,

Yousuf Ahmad

Subject: ICF Grey Literature Decision Tree Screening Results

Hi Yousuf,

Please find attached the updated screening file with ERG sources added. We have completed most of the decision tree screening with the exception of disparate type 3 sources from ERG. We did our best to tag them into the disciplines, but we can refine the tags for each document if you would like for us to continue that next week. There are about 410 rows that would need to be checked and put through the decision tree individually. There were some sources that were not

accessible from the urls provided such as from National Library of Medicine sources that have been retired. Please let us know if you have any questions.

Best,
Kevin
